## GROOMING TABLE COVER 110 X 60CM - GREY

Microfiber table cover with elastic edges to fit most tables.
Ideal if you want to dry your dog on the table, as the water that is blown out of the coat is immediately absorbed by the microfiber. This prevents puddles and water build-up around and on the table.
Grooming table cover
Microfibre cover with elastic edges
This cover protects the grooming table from possible soiling when the groomer uses colours or chalk.
It is also a comfortable, non-slip surface for the dog.
Dogs are much more relaxed, which makes the grooming experience for both dog and groomer much more pleasant.
The microfiber cover is machine washable
Size: 110 * 60 cm

# BATHTUB BOOSTER BATH

## BATHTUB BOOSTER BATH

Bathtub made of PVC indoor and outdoor UV stabilized, light and resistant, easy U shaped entrance. Its four removable legs with rubber grips make it easy to store when it's not being used. It includes a 3-point adjustable lead restraint system with adjustable collar that will keep your dog comfortably contained at bath time. The thick rubberised non-slip mat means no more stressful slipping and sliding. A large shampoo holder and a fan nozzle easy to hook with its on/off dial as well as a directional drain hose are also part of the basic equipment. The fan nozzle will have to be connected to a hose (garden hose) linked to a mixing valve (for temperate water) or to an ordinary tap.

# STAINLESS STEEL BATHTUBS

## FIXED FRAME STAINLESS STEEL BATHTUB

A step with anti-slip striated sheet metal makes it easier to get into the bathtub and to put it away in order to clear the work space. Material delivered unassembled. The assembly and connection to inlets and draining must be carried out **by a qualified professional. The back panel and side panels** must be installed after having inserted a clear silicon cordon for sanitary purposes.

Maintenance: The stainless steel can undergo a located corrosion pulling a corrosion by sting. Those particles of pollution (metallic dusts) can be present accidentally on the bathtub and form some rust in moist environment. In the kit of maintenance, the cleaning buffer allows to eliminate those spots of rust and the spray Quick Inox put down an antistatic and hydro protective film.

Clean: use a non-abrasive soft pad which is reference C0047.

# BATHTUB SPECIAL FOR BIG DOGS

## LOW STAINLESS STEEL BATHTUB FOR BIG DOGS

Delivered with a stainless steel bung, a mixer tap, a hand shower, a shampoo holder, a bracket and 2 straps.
The installation and the connection to the inlets and outlets must be carried out by a qualified professional. The installation of the bottom panel and the side panels must be carried out with the prior removal of a colourless silicone cord for sanitary use.
The emptying hole must be fitted with a siphon (not supplied, diameter 40 mm inside diameter 45 mm outside).

Maintenance: Stainless steel can undergo localized corrosion leading to pitting. These particles of pollution (metallic dust) can be accidentally present on the bathtub and form rust in a humid environment. In the maintenance kit, the cleaning pad removes these rust spots and the Quick Inox spray applies a hydro-antistatic protective film.

Cleaning: use a soft, non-abrasive cloth with the reference C0047

# ELECTRIC STAINLESS STEEL BATHTUB LEFT DOOR DOUBLE CONTROLS

*Comptatible with European standards*

## STAINLESS STEEL BATHTUB WITH ELECTRICAL FRAME

Material delivered unassembled.The assembly and connection to inlets and draining must be carried out **by a qualified professional. The back panel and side panels** must be installed after having inserted a clear silicon cordon for sanitary purposes.
**The arm** on the top is equipped with **2 sliding rings** which enable you to **keep the animal in place while washing**. **A complete plumbing system is installed into the side panel** :
**- a single-unit faucet with male connectors 15/21**
**- a shower head with a base unit and 1.60m hose**
**- soap or shampoo holder**
**A fixed connector enables you to attach a water-blower (to be installed on the outside of the bath)** to a **hose (option A1831)** in order to dry directly in the bathtub.
The draining system (Ø 45mm) on the right-hand side of the bath is equipped with a **strainer** which catches the hair and does not obstruct the pipeline. It is recommended that you unscrew slightly the thumbscrews on the left-hand side so that the bathtub is on a slight slope. Evacuation at 16cm from the ground.
**A** 4-part foot mat prevents slipping and lets the animal dry easily.
**The X-shaped frame**, with a very low voltage electric motor controlled by a **waterproof foot remote control can be adjusted between 35 and 70 cm,** which gives easy access to the bathtub and ensures an ideal working height.
**The side sliding door** makes it easier for the animals to get into the bathtub when it is in low position.

Maintenance: The stainless steel can undergo a located corrosion pulling a corrosion by sting.Those particles of pollution (metallic dusts) can be present accidentally on the bathtub and form some rust in moist environment. In the kit of maintenance, the cleaning buffer allows to eliminate those spots of rust and the spray Quick Inox put down an antistatic and hydro protective film.

Clean: use a non-abrasive soft pad which is reference C0047.

# CABINET DRYER

*Comptatible with European standards*

## CABINET

This pet drying cabinet offers you a more comfortable, relaxing, effective, safe, healthy and easy way to dry your pets after bathing. Drying is quick and less tiring for the groomer. It grants comfort to the groomer but also to the animal, who simply has to wait patiently. The drying cabinet is very silent, which does not anguish the animal - even cats can be dried inside! Its size enables to dry two small dogs using the divider or one larger dog. Thanks to the ventilation holes at the bottom of the cabinet door and to the oxygen box, any danger to the animal is avoided because he can breathe easily. In addition, the anti-overheating device will switch off the cabinet if the detected temperature exceeds 40 °C (+/- 2 ° C).
The drying cabinet diffuses hot air with highly concentrated negative ions to make the coat smoother, more hydrated and easier to brush. They enable to avoid static electricity on the coat. Negative ions can also purify ambient air in the cabinet.
Infrared therapy improves blood circulation, increases cell vitality and greatly enhances recovery.
The cabinet is equipped with an aromatherapy device with a capsule of lavender essential oil, known for its soothing antispasmodic and analgesic properties.
This cabinet is easy to use but also easy to clean. Its aestheticism will fit perfectly in all types of grooming salons.

Technical specifications:

- 6 levels of heating (30/32/34/36/38/40)°C
- Three-layer filter system that collects hair and facilitates cleaning
- Negative ion therapy
- Aromatherapy (lavender)
- Oxygen
- Infrared Therapy
- Equipped with handles to facilitate the movement of the cabinet
- Internal dimensions: 86 x 48 x 76 cm
- External dimensions: 99 x 71.5 x 93 cm
- 220V/50HZ
- 2500 W
- 51-79 DB
- Three-level ventilation speed

## OSTER® 3000i

The Pro 3000i is cordless and contains a rechargeable and replaceable Lithium-ion battery. This mower benefits from the quality, durability and performance that have made the Oster brand famous. The new Pro 3000i combines all these qualities and is distinguished by its mobility and power. The lithium-ion battery allows continuous mowing for up to 2 hours and reduces self-discharge between uses. Its high performance motor can reach 3000 double strokes per minute thanks to a silent torque motor. It offers professional groomers a tool that meets their requirements in terms of precision, efficiency, comfort of use, durability, accessories and design.
Delivered with a Li-Ion battery, a charger base, an oil can and a brush.
Battery: 1620 mAh

# HEINIGER® TRIMMERS

*Complies with European standards (CE)*

## CORDLESS MINI STYLE TRIMMER

The MINI trimmer from HEINIGER has the qualities, features and design you expect from Heiniger. The narrow head of this trimmer (30mm) is perfect for even the most complicated cutting jobs. It is also very useful for trimming the delicate parts of small breeds of dogs, paws and head and for your artistic creations. The battery life is 80 minutes and recharges in 60 minutes. The unique shape and curved head make the MINI Style more comfortable and allows you to make more precise cuts. It follows the curves of the animal's coat perfectly. This trimmer is extremely quiet and produces very low vibrations, making it perfect for even the most nervous animals.

It comes with :
- Power supply unit
- Charging station
- Adjustable blade
- Cleaning brush
- Bottle of oil
- User's manual

Autonomy : about 80 minutes
Battery charging : 60 minutes
Cutting length : 0.3 mm
Adjustable blade : 3-6 mm
Speed : 2750 oscillations/min
Dimensions : LxlxH: 146 x 30 x 38 mm
Weight : 120 g

| A 0981 | Adjustable blade |

## CORDLESS MIDI STYLE TRIMMER

The HEINIGER STYLE MIDI lawnmower has the qualities, features and design you expect from Heiniger. This trimmer can be used both on battery and mains power, so you can use it all the time. Its unique design is comfortable and ergonomic thanks to the curved head. The cut is also more precise for delicate trimming because it follows the curves and shapes of the animal. It has an autonomy of 100 minutes and recharges in 60 minutes. Supplied with a 46 mm blade that adjusts to different cut sizes: ideal for paws, heads and other delicate parts. This trimmer is extremely quiet and produces very low vibrations, making it perfect for the most nervous animals.

It comes with:
- Power supply unit
- Charging station
- Blade support
- Blade adjustable from 0.5 to 2.5 mm
- Cleaning brush
- Bottle of oil
- User's manual.

Autonomy: about 100 minutes
Battery charging time: 60 minutes
4 cutting lengths: 0.5 to 2.5 mm
5 hooves: 4, 8, 12, 16, 20 mm
Speed: 2400 oscillations/min
Dimensions LxWxH: 175 x 46 x 50 mm
Weight: 240 g

## DURATI CORDLESS CLIPPER 2 BATTERIES

The new cordless mower impresses with its optimal price/ performance ratio and the proven quality of the Aesculap brand. Its light and balanced weight, the typical Aesculap performance and the long battery life make it an outstanding product in the SnapOn segment. Powerful rechargeable battery with lithium-ion technology for a very long battery life. Very high power, even with thick and dirty coats. Ergonomic handle. Fatigue-free work due to low weight. Charging station with compartments for clipper and battery.

***2 year warranty by BBraun AESCULAP***

## SAV CHADOG — AN AFTER-SALES SERVICE FOR THE MAINTENANCE AND MANUFACTURE OF YOUR EQUIPMENT BY SPECIALISTS

### 4 GOODREASONS TO CHOOSE CHADOG'S AFTER-SALES SERVICE

#### 1. THE CHOICE OF QUALITY

A successful sharpening requires a high precision technique for an irreproachable result. This is why we carry out your work in our specialized workshops. With a long experience in this field, CHADOG has become the official distributor of the biggest brands (oster, Aesculap, Moser, Andis.. ).

#### 2. RESPECT FOR TIME LIMITS

Your sharpenings, overhaul and repairs are processed as soon as possible upon receipt within the day and are returned to you within 24 to 48 hours, working days. (excluding delivery times) except in cases of force majeure..

#### 3. A FREE AND CLEAR QUOTE

All repairs, other than traditional packages, are subject to a quotation submitted to your acceptance. The establishment of this quotation is free of charge. Remember to clearly indicate your complete contact details and the nature of the breakdown or any useful indication to our after-sales service.

#### 4. THE CHADOG GUARANTEE

In any case, CHADOG is committed to intervene on your equipment as soon as we receive it in our workshops. Your warranty is limited to the replacement of defective parts to the exclusion of any prejudice. In particular, it does not cover external components (cords, accumulators, sockets, switches, casings, etc.). In all cases, this warranty is limited to the manufacturer's or importer's warranty. The warranty period is effective from the date of sale. It is generally for a period of one year.

# INFORMATION ON SCISSORS

## SCISSOR SIZES :

The scissor's length in cm is measured at the end of the blade at the end of the farthest ring. The measurement does not include the finger rest. The measurement indicated in inches is that of the manufacturer.

## BLADE'S WIRE :

The cutting edge: generally there are two types of scissor blade cutting edges : one with a convex edge and the other beveled.

*Convex*

*Beveled*

The convex blades are thinner, more fragile and offer a softer use.

## MICRO-TOOTHING :

Blade wires can benefit from a microtoothing on one blade or on both blades.
The cutting edge is tailored into a thin saw tooth. The micro-toothed scissors make it possible to cut more strongly and reduce the movement of "slipping" of the hair during the grooming. Only beveled blades may be microtoothed. This is an operation that can be performed during sharpening.

*micro-toothing*

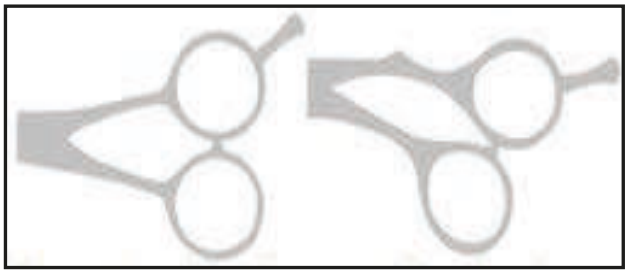
## ADJUSTEMENT SCREW :

The adjustment screw adjusts the tension of your pair of scissors. There exist adjustment screws that can be adjusted with a tool (such as a flat screwdriver) and others that can be manually adjusted. Always remember to check the pressure of your blades before starting your work day or as soon as you feel a decrease in cutting performance:

- Insufficient or too high tension causes damage to the blade wire
- Perfect tension ensures a flexible opening and closing for smooth cuts and especially precision in the cutting edge of the blades Be careful, when adjusting the blade pressure, your pair of scissors should always be in the closed position. To tighten the pressure, turn the screw delicately one notch clockwise and then check if the tension is correct. To release the pressure, turn the screw counter-clockwiseand then check if the tension is correct.

## THE SHAPE OF THE BRANCHES :

Scissor branches can be symmetrical or offset



The offset (with decal rings ) branches allow a better alignment of the fingers during cutting reducing fatigue and muscle pain. It is best to use the two types of branches alternately to prevent repetitive movements that can wear out on the long term

## SHARPENING :

How to know when it's time to sharpen and revise your scissors:
1. The "wire" of the blade is no longer regular and has notches
2. You need to make a greater effort to cut
3. Your blade "pinches" the hair
4. Your blade is slightly oxidized
5. When your blades intersect
6. You can no longer adjust the pressure correctly

## MAINTENANCE :

Clean the blades and the joints of your scissors once a day with a soft cloth. Add a drop of maintenance oil to the joint for optimum cutting efficiency. Open and close the scissors several times in a row to distribute the oil well.

# REVOLUTION EHASO SCISSORS

*The Japanese stainless steel of these scissors, with a hardness of 60+ Rockwell, is one of the best alloys in the whole word. It is made with a Japanese method combined with the most modern American technology. The extreme hardness of the stainless steel 440C+ combined with molybdenum cobalt and the specific grinding of the blades guarantee an easy and stressless work.*

## VACUUM TRASH

The Sibel makes it easier to sweep floors: your living room stays clean all day long. Simply brush the bristles, dust and dirt to the base of the unit: the infrared sensors will detect debris and operate the vacuum trash. It will turn off automatically when all impurities have been sucked. The features of the trash can guarantee a reinjection of clean air into the room. A convenient switch turns the unit on and off (manual control is also possible). This unit works perfectly on rough surfaces such as tiles, parquet, vinyl. The perfect accessory for any grooming salon.

# GROOMING ACCESSORIES

## SCISSORS HOLDER

This scissors holder has been designed to store scissors and have them on hand for convenience. This product fits into the worktop and brings out the professional side of the groomer. This scissors holder protects the material from dust and dirt. You can slip combs and other accessories as needed. Coated with a soft synthetic material, its "sheath" keeps the scissors safe from any deterioration due to possible friction. PVC absorbs moisture to prevent rust.

| STAR | reference | description |
|---|---|---|
| | A 0302 | Blue scissors holder* - H. 22,5 x Ø 11,30 cm |

*Sold without scissors

***Characteristics:***

- *Phoenix scissor holder*
- *To store several pairs of scissors*
- *Effectively protects the material from dust and dirt*
- *Does not damage scissors*
- *Accessories not included*

***Usage tips:***

- *Put the scissors upside down*
- *Clean with regular wipes.*

## SCISSORS WALLET

The scissors wallet is ideal for home groomers or dog shows. Light, practical and design, this kit will safely accommodate professional scissors. It is a strong and resistant product that will be preserved for a long time. Thanks to it, your accessories will be protected from shocks and other aggressions. Apart from the scissors, this scissors wallet can accommodate other small grooming tools (combs, nail clippers, trimmer). Its practicality and its aesthetics make it an accessory of choice for any self-respecting groomer.

# COAT PRINCE

*The COAT PRINCE is equipped with an ergonomic wooden handle whose width has been specially designed to avoid any effort during work and gives it an excellent balance. The positioning of its blades, in perfect extension of the arm, makes the work extremely easy and avoids any undesirable pressure on the shoulder's elbow's and wrist's joints. The COAT PRINCE is therefore perfectly suited for intensive use in grooming salons. Thanks to its unique design, COAT PRINCE allows you to perform three stages of grooming in one operation, saving you valuable time.*

# GLOVES AND BRUSHES

## MAGIC GLOVE

With this magic glove, reduce the hair loss of your pet. The magic glove painlessly brushes the coat of the animal and gently pulls the hair. With the magic glove, the grooming of your dog or cat will become a pleasant moment of relaxation! Designed with 5 fingers to brush the entire body of the animal, it allows you to reach the most sensitive parts of your animal like the back of the legs, the tail or the head. Simply brush your pet so that the 180 soft silicone pins retain all dead hair without pulling. Then you just grab the hairs held by the glove to remove them at once and throw them.

| STAR | reference | description |

# COSMETIC

# OH MY DOG®

## OH MY DOG ! PERFUME

**Oh my dog ! is the first** high quality unisex perfume, specially adapted to all breeds of dogs. Each ingredient has been meticulously chosen, in order to avoid smells that could disturb the sense of smell of your favourite animal and also to help you to make sure that both you and your four legs friend will live in peace together.
**Oh my dog !** has been elaborated and tested with an abolute scientific strictness as if it was a child perfume. Dogs have a more sensitive skin and sense of smell than the human beings. A laboratory, specialized in beauty care, associated to one of the two best veterinary schools in Europe, have realized innocuousness and toxicity tests on both dogs and masters.
The perfume **Oh my dog !** presented in its spray bottle, will make your life easier and will entertain the complicity with the dog.
To perfume your animal :
• Spray **Oh my dog !** in the palm of your hands and apply it by stroking the back and the sides of the dog.
Or :
• spray **Oh my dog !** on a comb, before brushing.

| STAR | reference | description |
|---|---|---|
| | C 0751 | 100 ml |

## OH MY DOG PERFUME

This new microdiffusion spray brand is ideal for professional groomers. Instead of a concentrated water burst, the spray bottle offers an ultra-light mist. The ergonomic handle matches with your hand's shape. The spraying mechanism lasts 3 seconds, it is an uniform spraying with only one press of the handle. Can be used from all angles. Thanks to its microdiffusion technology, the bottle lasts up to 30% longer than a conventional bottle.

## OH MY DOG ! SHAMPOO

**Oh my dog ! Shampoo** is formulated in a total respect of the dog physiology.
**It does not damage the coat and does not burn the eyes.** It makes the coat shiny and light just as if it was a teddy bear, and makes it smells divinely good.
**It respects the balance and the PH of the canine epidermis.**
The perfume and the shampoo do not contain ingredients that can cause a rejection, sting your dog's eyes, make your dog sneeze or run away.
It has been checked that perfuming a dog was not a reason for it to be quarantined by other animals or family members.

| STAR | reference | description |

NUTRITIVE AND CONDITIONER SHAMPOO

## DOG GENERATION GUARANTEE

***The new DOG GENERATION products*** are not tested on animals but on ***skin cell cultures.*** They contain ***natural BIO actives and are guaranteed :***

- **PROPYLENE GLYCOL FREE** (skin galling)
- **ANIMAL OILS FREE** (Mink or Lanonil OIL)
- **PARABEN FREE** or METHYLPARABEN (which can give allergies or cancers)
- **FORMOL FREE** or FORMALDEHYDE (in June 2004, this substance extremely allergen has been classified carcinogenic» by the ICRC (International Cancer Research Center)
- **OGM FREE** (Organism Genetically Modified)

## *Did you know that?*

Jojoba is a shrub with a persistant blue-green foliage. ***The jojoba oil*** contained in its seeds is ***non-greasy***. Its texture and its composition are similar to the sebum naturally secreted by our capillary glands, which explains its efficiency treating ***dandruffs and sebum hypersecretion***.

- ***Greasy coat : it regulates sebum secretion and gives shininess and vitality to the coat.***
- ***Dry coat : it moisturizes the coat, it also makes it softer and less brittle.***
- ***All type of coats, it has a conditioning action and gives a "hanging look" to the coats.***

## PAW AND NOSE BALM

Moisturizes, protects, softens and repairs your pet's paw pads and nose. Perfect for cracked and dry nose. Ideal for caring for paw pads, before and after intense effort (hunting, long walks in cold or hot weather, running, etc.). Composed essentially of ORGANIC shea butter, ORGANIC hemp oil, ORGANIC coconut oil, ORGANIC jojoba oil, candelilla wax. and beeswax. Easy to apply, it penetrates quickly and its discreet smell is ultra pleasant!

**Directions for use:**

Apply a knob of ointment on your pet's nose and/or paw pads and massage until it penetrates. Apply the balm one or several times a day.

- 100% natural active ingredients
- No preservatives.

**Composition:**

**Shea butter** is naturally rich in vitamins A, D, E and F, it moisturizes, softens and smoothes!

**The properties of hemp oil** are numerous:

Anti-ageing: protects and regenerates mature and tired skin.
Soothing: relieves dry, sensitive and damaged skin.
Soothing: soothes dry and irritated skin.
Nourishing: suitable for dry and dehydrated skin.

**Coconut oil** is a real star in cosmetics. Moisturizing, nourishing, anti-aging, softening, repairing. Very rich in essential fatty acids, lauric acid and myristic acid, it has a lipid-replenishing action and is very easily absorbed by the skin.

**Jojoba oil** has a nourishing, protective, rebalancing and softening action. Its regenerating properties and the fact that it helps to maintain firm skin make it an excellent anti-aging oil.

**Beeswax is a natural product** but nevertheless complex because it is composed of more than 300 substances. Its high content of vitamin A, which gives it moisturizing and protective properties: it forms an impermeable film on the skin and is a good source of vitamin A. skin that protects it from external aggressions and dryness. Beeswax is particularly effective for softening and smoothing, moisturize the skin.

**Candelilla wax is a vegetable wax.** Obtained from a small shrub native to Mexico, Candelilla's vegetable wax is secreted by the leaves of the tree to protect it from external aggression and to avoid water evaporation in areas that are often very prone to dry. It has protective, film-forming virtues and retains moisture.

*100% natural*

*preservative-free*

Since 1994, CHADOG DIFFUSION strove to offer the most efficient cosmetic products that would meet the expectations of its customers. Each product was meticulously chosen, based on the strict criteria selection.

Yet, our client's satisfaction is a permanent challenge. So after 17 years full of innovation, we decided to create our own professional cosmetic range, completely launched under our own brand, Dog Generation®. This not only allowed us to control every step from the conception to the realization of this project but also to point out the security issues for both the dog and the user and to make it our first priority.

To make the grade, all tests were made under toxicological control in order to ensure the harmlessness of the range. Also, none of these tests were realized on animals.

For every step of the range's development, we took our groomers advices; they tested the products on cats and dogs during their grooming sessions in order to be able to judge the properties of the products (nourishing, washing, detangling or lathering) as well as the texture and the fragance.

Being conceived for professionals, this new range of cosmetic products combines efficiency, hygiene and pleasure to take care of your animals.

# THE ESSENTIALS

## OPTIMIZED SUPER DETANGLER CONDITIONER

1. To untangle: depending on the degree of entanglement, spray the product on the knotted area in sufficient quantity. Leave to act and brush.

2. For knots: massively soak the knotted area with this product, massage, leave on for a few minutes and untie with your fingers, comb and then brush.

3. For brushing and reducing the antistatic effect: spray the product in very small quantities and lift the fur before brushing.

4. To prepare for baths and for fragile skin before bathing: make a massive spray 1 hour before the bath.

| reference | description |

## NON PULL HARNESS SMALL

Discourage the dog from pulling on the leash and allowing the master to regain control immediately.

| reference | description |
|---|---|
| H 0951 | Small size: Jack Russel, Terrier - 20 to 30 cm |
| H 0952 | Medium size: Labrador, Border Collie - 30 to 43 cm |
| H 0953 | Big size: Mastiff, Rottweiler - 43 to 60 cm |

**COMFORTABLE FOR YOUR DOG**
Lightweight harness with yoke on the chest and leg straps. The yoke on the chest prevents the harness from slipping on the side when the dog shoot.

**USER-FRIENDLY**
Easy and quick to put on. Simple and effective with two control options depending on the pulling force of the dog.

**SO HE'LL STOP PULLING**
Instant results with a UNIQUE combination of anti-traction action and front control.

**SAFE WALKS**
Security at all times with a yoke on the chest and reflective strap seams.

## HARNESS HALTI

Prevents the dog from pulling on the leash by allowing guidance and control through the chest and shoulders instead of the head. It is the ideal solution for learning to walk on a leash for all dogs that can not wear a halter (problems of vertebrae, brachycephalic dogs ..).

| reference | description |
|---|---|
| H 0980 | Small size: Jack Russel, Terrier |
| H 0981 | Medium size: Labrador, Border Collie |
| H 0982 | Big size: Mastiff, Rottweiler |

**Double guiding:**
Rings on the back and chest offer two control points. Can be used with the HALTI 3-position dressage leash.

**Safety carabiner:**
The carabiner clings to the dog's collar for added safety.

**Front control:**
Stops the pulling action by controlling the animal via the chest and shoulders.

**Strong and safe:**
High quality nylon braiding for durability and durability.

# Baskerville™
## SECURITY AND AGGRESSION

### BASKERVILLE ULTRA MUZZLE

Baskerville's muzzles are comfortable and do not stop your dog from panting or drinking. If you use a muzzle for education, all our muzzles allow you to give treats to reward the dog. Made from a strong yet flexible thermoplastic elastomer, the Baskerville Ultra Muzzle is the perfect combination of comfort and safety. Lined in soft neoprene.

Also very convenient for dogs hospitalized in veterinary clinic: the muzzle allows to administer his medication to the dog, and if necessary, does not prevent it from vomiting.

| reference | size | Around muzzle (B) | Under neck (C) |
|---|---|---|---|
| L 0284 | S 1 | 22 cm | 5 cm |
| L 0285 | S 2 | 27 cm | 6 cm |
| L 0286 | S 3 | 28 cm | 8 cm |
| L 0287 | S 4 | 32 cm | 9 cm |
| L 0288 | S 5 | 35 cm | 11 cm |
| L 0289 | S 6 | 41 cm | 13 cm |

**Extra security:**
buckle to attach to the collar and extra safety strap to put on the head. Respectful of the dog: the unique shape allows the dog to eat, drink and pant freely.

**Perfect fit:**
The soft rubber design warms the muzzle in warm water and then changes its shape to ensure a comfortable fit regardless of the shape of the dog's head.

**Respectful of the dog:** the unique shape allows the dog to eat, drink, gasp freely.

## ULTRASONIC BARK CONTROL WITH BATTERIES

The Ultrasonic Bark Collar is activated depending on the behavior and beeps when its microphone detects barking. Surprised by the sound signal that is inaudible to most humans, the dog should stop barking.
Waterproof receiver collar 64g length 71 cm
For animals weighing more than 3.6 kg

| reference | description |
|---|---|
| L 0117 | 1 collar |
| L 0106 | 3V battery lithium |

*3V battery included*

## INDOOR BARK CONTROL (ANTI-BARK)

When a barking dog is in the area covered by the Petsafe Bark Control System, an internal microphone picks up the sound. The device then automatically emits audible ultrasounds for dogs, but inaudible to most humans. Surprised by this high pitched sound, the dog should stop barking. Over time, the dog will make the association between his barking and this unpleasant sound. When the dog stops barking, the ultrasound emission also stops. The device is effective up to 8 meters.

## DRESSING SYSTEM TREAT AND TRAIN

Dogs reproduce the behaviors that are rewarded. The Remote Reward Training System is a remotely controlled system using positive reinforcement to train dogs to behave well at home and with other dogs. By rewarding satisfying behaviors, this system is a valuable tool for redirecting the dog's attention and preventing him from barking at the door, jumping on the guests and begging at the table. This system can also be used to teach him certain actions such as lying down, not moving, or coming when you call him.

**CHARACTERISTICS**

- *Positive reinforcement training: ideal for preventing your pets from begging at table, jumping on guests and barking near the door.*
- *Remote food distributor*
- *Telescopic targeting rod with removable base*
- *The remote control works up to 30,5 cm distance*
- *2 interchangeable food discs, for large and small croquettes*
- *Includes an illustrated manual and instructional DVD*
- *1 year warranty*

| | F 0111 | 40 cm |

## HALO MICROSHIP SCANNER

Halo reader allows the identification of the majority of chips posed by veterinarians. Recommended for breeders, veterinarians, animal refuges, animal pounds for easy identification. The HALO reader reads all FDX-B (15 digit) and FDX-A (10 digit) chips in accordance with ISO 11784 and ISO 11785.
When the battery is empty, the "Battery Low" message will appear on the screen. To charge the battery, connect the jack on the back of the player and a valid USB port on the computer in which the software is installed. As long as the PC is connected to the internet, the reader will automatically download the animal number file reported as lost in its memory.
Memory of the last 2000 issues.

| | E 0375 | Length 30 cm x Width 25 cm |

## DE-ODOUR (Air freshener)

Concentrated deodorant for breeding premises or bedding. De-Odour is a creamy white liquid, 100% biodegradable, intended for the elimination of all odors, of chemical or animal origin (effective in severe cases as against male cat urine).
De-Odour is a unique combination of terpenes, aldehydes, esters, butyrates, fragrances and emulsifiers. It's not a perfume but really a very effective deodorant. When applied, the product has a characteristic smell of chewing gum that disappears quickly, unpleasant odors having been eliminated.
Unlike bleach, which tends to fix odors, De-Odour eliminates them radically. Particularly recommended for treating livestock rooms, maternities, kennels, sleeping places (niches, cushions, sheets, blankets, bedding ... etc)
Safe for animals in treated areas, De-Odour does not release toxic or allergenic fumes. This product contains: mixture of aromatic and aliphatic aldehydes, ketones, lactones, esters, terpenes, emulsifiers and water.

## TECHNIFLEX

Hemp seed powder provides important amino acids for the formation of proteins that are important for optimal muscle growth. In addition, essential fatty acids can help with oxidative stress and protect cells from free radicals. Hyaluronic acid is important for sliding joint surfaces and supports the water-binding capacity of the joint cartilage. Methylsulfonylmethane is a donor amino acid of sulphur is essential for a smooth metabolism of connective tissue structures. Natural omega fatty acids reduce musculoskeletal problems so that the dog moves more easily and better. Collagen hydrolysate from veterinary-controlled swine material supports tendons, ligaments, fascia and joint cartilage.

## LINT BRUSH (Double sided)

This brush easily cleans any kind of fabrics (clothes, seats, armchairs, curtains) by picking up pet hair.

| reference | description |
|---|---|
| C 0764 | Double sided (26 cm) |

## ANTI-HAIR BRUSH

This brush is ideal to remove all animal bristles from sofas, beds, carpets, blankets etc. Roll quickly the brush from front to back. An electrostatic charge is created and the rollers capture all animal hair that will accumulate in the dust tank. You only need to open the container once it is full and throw the hair in the trash.

## DISPOSABLE HYGIENE COMFORT NAPPY

Comfort Nappy is a super absorbent nappy for females and males that can be used by puppies that are not clean, females in heat, nervous and incontinent dogs. The diaper prevents the puppy or dog from soiling the carpet, floor, sofa, etc. It offers optimal protection thanks to the super absorbent gel that absorbs blood or urine. The result is that the diaper is dry in seconds. The dog remains dry and does not suffer from irritation or infections. The diaper is black on the outside so that nothing can show through. It should be replaced when dirty and should be disposed of as household waste. Diapers are available in 6 different sizes, please measure the circumference of your dog's belly so that you can choose the right diaper size.

## SIMPLE STAYWELL ALUMINIUM PETDOOR

This door gives your pet all the independence he needs and is the most resisting model on the market. Easy to install, the solid aluminum frame has reinforced corners for heavy use or for multiple pet homes. The flexible, soft flap is tinted and adjustable. A magnetic flap closure and pile weather stripping along the sides of the flap opening form a weather-resistant seal. A closing panel is included for improved weather-resistance or to control your pet's access to the pet door.

# STRATEGY GAMES

## BLACK SNUFFLEMAT

The digging mat is the perfect game to occupy and stimulate your dog's concentration. You just have to hide sweets between the fringes of the carpet. the dog will be happy to find them thanks to his smell. This makes it possible to occupy him for a long time but also to slow down the eating (anti-glutton effect). To be used under the supervision of the master. Check the condition of the carpet regularly so that the dog does not swallow any tissue. Do not leave it within reach of children

| STAR | reference | description |
|---|---|---|
| | 0 2739 | 45 x 30 cm |

## SWITCH DOG REFLECTION GAME

Made of sturdy painted MDF wood. the dog accesses the treats by sliding the lids. Anti-slip coating. Level of difficulty: medium

# TREATS

## OLIVE TREE BATON

The wooden chew stick is a toy composed entirely of natural olive wood, enriched with olive oil. For dogs that like to chew or nibble. Olive wood is perfect because it does not produce small pieces of wood or sharp pieces. Olive wood is a tightly grained wood that is harder than most indigeneous wood. It acts as a natural toothbrush and thus helps in the elimination of tartar.

| reference | description |

# GENERAL CONDITIONS OF INTERNATIONAL SALES

**Tacit agreement: Unless special agreement written with the customer, placing an order implies full acceptance of these general conditions of sale:**

**OFFERS:**

Offers made by the seller are without obligation. In order to be legally valid, all declarations of acceptance and all orders must be confirmed by the Seller in writing, email or fax. This also applies to all additions and changes.

**RATES AND PAYMENTS:**

- European companies with an international VAT registration number are not subject to VAT for deliveries outside France.

- European companies without an international VAT registration number are subject to French VAT (20%).

- Companies outside Europe are not subject to VAT.

- Rates are in Euro (€) Exworks (Incoterm 2010), departure from CHADOG DIFFUSION's warehouse, Aytré, France.

- These commercial terms and the prices can be modified by CHADOG DIFFUSION at any time and without prior notice, because of exchange rates, costs of raw material or management decision.

- Orders are shipped once full payment is received.

-Orders are sent once the full payment has been received.

- The general conditions of international sales and deliveries of Chadog Diffusion are applied on all our offers, contracts and invoices placed.

You received a copy of the present conditions by mail with your price list. You agreed those conditions when you agreed your quote. Our goods remain our property as long as the debts arising from the future and present business relationship with the seller haven't been fully paid. None discount will be given for any anticipated payment. Where the buyer is in arrears the seller is entitled, as of the relevant point in time, to claim interest at the rate charged by his business bank for overdrawing a current amount, at a minimum rate, however at least of 8% above the prevailing base rate and a minimum of 40€ for collection fees (Directive 2011/7/UE).

**PACKAGING AND SHIPING:**

-Prices given are Exwork (Incoterm 2010), departure from Chadog's warehouse.

-Quotations are made EXW or DAP (Incoterm 2010), for other Incoterm, please contact us.

-Orders are prepared once the full payment has been received.

-Shipping and custom fees are at the charge of the buyer. Dispatch to the final destination is at the expense and risk of the receiver.

Dangerous goods : Pressurized sprays, perfumes containing alcohol or other known dangerous products, which are subject to IATA Declaration on air transport will be removed from orders sent by airmail, or subject to a flat fee of € 300 for the establishment of the Declaration of dangerous Goods by air, as well as the specific adequate packing and labeling for this type of shipment.

The above flat fee does not include shipping.

For shipments of these products by sea (IMDG Declaration) Chadog provides the Declaration of dangerous goods.

**CLAIMS AND RETURNS:**

Delivery will be made on the basis of a written confirmation of the order, by email or fax, if no written confirmation has been established on the the vendor's invoice basis.

On reception of goods:

• The customer must check the status of the goods delivered upon delivery and BEFORE signing the delivery receipt provided by the carrier.

All anomalies noticed must be registered as handwritten express reserves accompanied with your signature on the delivery receipt, if the package has one or more damages, clear and precise reservations must be listed on the delivery receipt. Ex : «Carton ripped, three shampoos missing .»

• A registered letter will have to be sent to the carrier within 72 hours as well as a copy to our company.

• Remember that the words «subject to unpacking» have no legal value (simple reserves are not legal).

You should at least check: the good condition of the pallet and parcels, the presence of an opaque film or transparent tape + Chadog diffusion Warranty tape.

The number of pallet and parcels must be in accordance with what is indicated on the delivery slip. In the case that no reservations of the above points were made on the delivery slip, we will not take into account any subsequent claim.

Returned goods will be accepted with prior arrangement. All freight costs arising will be at the customer's charge.

Goods must be returned in their original package and mint condition.

**WARRANTY:**

Products are warranted against manufacturing defects for the period of one year from the original purchase date.

Any technical intervention without former authorization from Chadog will cancel the warranty.

The warranty takes effect from the billing date of the products.

The warranty does not cover damage due to misuse or negligence.

All freight costs arising will be at the customer's charge.

The warranty is limited to replacement of defective parts and does not cover external parts (electric cable, switches, plugs, remote controls, batteries…)

**RETENTION OF TITLE:**

Our goods remain our property as long as the debts arising from the future and present business relationship with the seller haven't been fully paid. If the buyer fails to fulfil the obligations he has towards the seller, the latter shall be entitled, after a reminder and without prejudice, to request the return of the reserved goods. The seller shall be entitled to collect the goods himself.

**CHOICE OF LAW, PLACE OF PERFORMANCE, PLACE OF JURISDICTION, PARTIAL INVALIDITY:**

In case of dispute, the Tribunal de Commerce de La Rochelle, France, is the only competent, or failing that, any other competent court, the closest to the registered office of CHADOG DIFFUSION, in France. This also applies in case of summary judgment, incidental claims or multiple defendants.

Pictures are not contractual - typographical errors may occur. Any copy or use, partial or total, of the images, photos or sites belonging to Chadog Diffusion must be subject to prior Chadog Diffusion agreement.

These conditions of sale can be reviewable by the company Chadog Diffusion at any time and without notice.

The business relationship between the seller and the buyer shall be governed in its entirety by the French law (French Commercial Code, French Civil Code, French Penal Code etc…), excluding the UN Convention on International Sale Contracts.

The contract is written in English. The French language will be used for any legal action.

If individual clauses of these sale and delivery conditions are fully or partially invalids, this will not affect the effectiveness of other clauses.
